**Subject:** Fwd: footprint map chicken creek - continued

Tony, The map you submitted omitted the cut and fill areas associated with roads and other areas in the disturbed area. Doug, Tom, and I drew the disturbed area that we think should be shown on the map (attached). Please modify the map to show these areas and provide a legend defining the disturbed area line. We will expect the map by early next week. Thanks Susan

>>> Tom Munson 9/23/05 11:18 AM >>>

We had to identify the footprint of your disturbance with a red line as it was not totally clear on your map.
